FIVE STAR  
SENIOR LIVING

Five Star Sr Living - Interior Coatings

GOOD		Promar 200 0 VOC	ProMar 200 Zero VOC Interior Latex is a durable, professional quality, interior vinyl acrylic finish for use on walls, ceilings, and trim of primed plaster, wallboard, wood, masonry, and primed metal. <i>*Zero VOC formula maintained with ColorCast Ecotoner @Colorants that do not add VOCs when tinted.</i>
BETTER		ProMar 200 HP 0 VOC	ProMar 200 HP Zero VOC Interior Acrylic is a high performance durable, professional quality, interior acrylic finish for use on walls, ceilings, and trim of primed plaster, wallboard, wood, masonry, and primed metal. ProMar® 200 HP Zero VOC Interior Acrylic is for commercial or light industrial projects that require greater durability and abrasion resistance. MPI® compliance in Standard, High Performance, Institutional and X-Green® categories. <i>*Zero VOC formula maintained with ColorCast Ecotoner @Colorants that do not add VOCs when tinted.</i>
BEST		Harmony IAQ Interior	Harmony IAQ Interior Acrylic incorporates Formaldehyde Reducing Technology that helps improve indoor air quality by reducing VOCs from possible sources like insulation, carpet, cabinets/fabrics, and other common odors. All while delivering exceptional hide, durability, anti-microbial, and touch up qualities. <i>*The length of time Harmony actively reduces odors and formaldehyde depends on the concentration, the frequency of exposure and the amount of painted surface are. *Zero VOC formula maintained with ColorCast Ecotoner @Colorants that do not add VOCs when tinted.</i>

Five Star Sr Living - Exterior Coatings

GOOD		SuperPaint Exterior Acrylic	SuperPaint Exterior Latex, with improved resistance to early dirt pick up, provides outstanding performance on properly prepared aluminum and vinyl siding, wood, hardboard, masonry, cement, brick, block, stucco, and metal down to a surface and air temperature of 35°F. <i>VinylSafe™ Color Technology allows the use of many darker colors on vinyl trim &amp; shutters that cannot be made in most other coatings.</i>
BETTER		Resilience Exterior Acrylic	Resilience® Paint is the perfect choice for commercial exteriors. It has outstanding hide, easy brushability and exceptional resistance to moisture. With Resilience, the threat of rain or dew will not slow down or delay the job because it is specially formulated with breakthrough MoistureGuard™ Technology, resisting moisture quicker than standard exterior latex coatings. Newly painted exteriors develop resistance to moisture in as little as <b>one hour</b> rather than the four-hour minimum most coatings require and can be applied down to 35°F. <i>VinylSafe™ Color Technology allows the use of many darker colors on vinyl trim &amp; shutters that cannot be made in most other coatings.</i>
BEST		Duration Exterior Acrylic	Duration® Exterior Coating is formulated with PermaLast™ Technology and infused with advanced acrylic co-polymers for long-lasting performance. Duration has a high film build and provides a thick, flexible layer which results in excellent hide and protection from peeling and blistering. And Duration now has a longer open time to easily achieve a smooth appearance. Duration is self-priming and provides a mildew resistant coating that can be applied down to 35°F. <i>VinylSafe™ Color Technology allows the use of many darker colors on vinyl trim &amp; shutters that cannot be made in most other coatings.</i>
